This Agreement sets out the basis on which the Company will receive, and handle instructions given from the Client to enter into Transactions for and on the Client's behalf and hold Financial Instruments and money for and on the Client's behalf.
- 6.2.2. The Client acknowledges that he/she shall provide the Company with instructions to enter into Transactions acting as a principal and not as an agent for any undisclosed third persons. This means that unless the Company has otherwise agreed in writing, it will treat the Client as its counterparty for all purposes and the Client will be responsible for performing its obligations under each Transaction performed through the Company's Platform.
- 6.2.3. The Share Dealing Service will be carried out by the Company on the understanding that the Company is not providing the Client any investment, legal, regulatory and or any other form of advice. It is the Client's responsibility to seek independent advice in relation to any Transaction he/she proposes to enter under this Agreement.
- 6.2.4. The Client, pursuant to the provisions of the Agreement, will enter into Transactions for Buying or Selling. The Company will provide the Client with the Buy and Sell price for Financial Instruments in the Underlying Market. If an order is accepted the company will confirm to the client if the transaction has been partially or fully executed. The Company does not provide any guarantees that the Client Orders will be fully or partially executed in the Underlying Market. Where a delay occurs because the Company is unable to interact with the relevant Underlying Market for any reason, the Company will attempt to execute the Order as soon as reasonably practicable.
- 6.2.5. The Client acknowledges and accepts that the market price of any Financial Instrument may change between the time the Company receives and accepts an Order and when it attempts to execute it. Under these circumstances, the third party who provided the quoted prices to the Company is not obliged to honor the indicative price the Client have received and, if that is the case, the Company may reject the Client's Order. Such movements in price may be in favor or against the Client.
- 6.2.6. The Client acknowledges that if he/she places an Order (whether during normal market hours or when the market is closed), then he/she agrees to pay or receive the prevailing market price at the time the Client's Order is executed. The Client understands that the price he/she pays may be significantly higher or lower than he/she had anticipated at the time the Client placed the Order.
- 6.2.7. Unless the Company agrees in writing otherwise, all sums payable by the Client are due immediately and must be paid upon entering into the Order. If the Client Buys a Financial Instrument, the consideration for the Order and, in addition, all applicable charges and taxes to that Order will be the Client's responsibility and will be deducted from the Client's Trading Account and or held by the Company as final settlement. Monies deducted will not be treated as Client money on the day of expected settlement. If settlement does not occur on the day of expected settlement the monies will be treated as Client money. It is the Client's responsibility to always ensure that

sufficient cleared funds are in its Trading Account to satisfy settlement of any Order and all charges and taxes associated with that Order.

- 6.2.8. The Client acknowledges that the Company is not a Regulated Market. This means that the Client can only place Orders on the Trading Platform. Therefore, the Company's Share Dealing Services are limited to Buying a share or other Financial Instruments on the Company's platform and selling those Instruments on the Company's platform. - 6.2.9. Financial Instruments purchased by the Company for and on behalf of the Client and or transferred to the Company will be registered in the name of a nominee company or on the Company's name. The Company will be responsible and liable for the nominee to the same extent as for the Company's own acts, including losses arising from fraud, willful default or negligence.
- 6.2.10. Any Financial Instruments held by a nominee will be held in an omnibus account. In this respect the Client agrees that the Company will hold their Real Stocks in one or more pooled accounts under the Company's ownership, the Client may receive dividends or distributions net of applicable taxes which has been paid or withheld at rates that are less beneficial than those that might apply if the Real Stock were held in the client's own name or not pooled.
- 6.2.11. The Company does not provide Share Dealing Services US persons. If the Client becomes a US person after their Trading Account has been opened, the Client must inform the Company immediately. This may result in the Client's Trading Account being closed with any Positions liquidated and cash returned. If the Company allows the Client to trade in Financial Instruments and then classify the Client as a US Person, the Company may close any open Positions the Client may hold and then block and or close the Trading Account.
- 6.2.12. The Company will request from the Client to complete and sign the relevant US tax form before the Company accepts an Order from the Client to Buy a Financial Instrument in relation to shares listed in the US. If the Client has not previously provided to the Company a valid US tax form and the Client already holds US shares, the Company will request to complete the relevant US tax form. If the Client does not return the signed and completed US tax form before the date that is specified by the Company, the Company reserves the right to Sell the relevant US Shares. The Client acknowledges that he has an ongoing obligation to inform the Company if their tax status changes. The Company may apply the default rate of taxes applied by the relevant tax authorities.
- 6.2.13. The Client acknowledges that the Company may act both as an agent and/or principal when executing a Client's Order. The whole real stock component of any Order will be executed by the Company as agent, through a regulated stock exchange market, a number of liquidity providers, a multi-trading facility and/or an organized trading facility. The fractional Real Stock component of any Order will be executed by the Company as principal against its principal account.

Once a Margin Call is received, the Client acknowledges that it must immediately comply.
- 7.3.6. In the event there is insufficient Margin on the Client's Trading Account or if the deposited Margin is not sufficient to satisfy the Margin Requirements, as determined by the Company, the Company will proceed with the closure or termination of any or all of the Client's Open Positions immediately without notice.
- 7.3.7. The Client acknowledges that the Company may be unable to provide any Margin Call in extreme circumstances, including among others the following:
- (a) Any technical error, resulting from Third Party Software utilised by the Company, including among others the Company's Platform and Email Service System; and/or
 - (b) Under Force Majeure Events, following the provision of Clause 19;
 - (c) Under increased market volatility, which will result to a rapid increase fluctuation of the Financial Instruments price, and the Company will be unable to disseminate a Margin Call in due time.
- 7.3.8. Failure to meet the Margin Requirements at any time or failure to take an action, gives the Company the right in its sole discretion, to close any and all of the Client's Open Positions whether at a loss or a profit without further notice the Client. It is the Client's responsibility to monitor, at all times, the amount deposited in the Client's the Trading Account against the amount of Maintenance Margin required as a result of the Client's

trading decisions and it is understood that the Company has the right to take the actions of this paragraph, even if a Margin Call is not made.

7.3.9. Margin shall be paid in monetary funds in the Currency of the Trading Account.

7.3.10. The Client undertakes neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the Margin transferred to the Company.

7.3.11. If the Client has more than one Trading Account with the Company, each Trading Account will be treated entirely separately. Therefore, any credit on one Trading Account (including amounts deposited as margin) will not discharge the Client's liabilities in respect of any other Trading Account. It is the Client's responsibility to ensure the required level of margin is in place for each Trading Account separately.

7.4. Negative Balance Protection

7.4.1. CFDs are leveraged products and therefore incur a high level of risk and may result in the loss of all the Client's Capital. For the benefit of the Company's Clients, the Company has implemented a "negative balance" protection program, on an account basis, whereby the Client cannot lose more than his/her investment.

7.4.2. Nonetheless, the Client is expected to actively monitor and manage open positions in the Trading Account.

7.4.3. It is possible for adverse market movements to result in the loss of more than the Client's Account balance, so that it becomes negative. In this case, the Company will bear the negative consequences of such adverse events and any of the Client's losses will be limited to the Client's Account balance.

7.4.4. Any trading strategy based on the use of the Negative Balance Protection mechanism and creating unfair advantages to the Client can be considered as improper or abusive behaviour, which will grant the Company an absolute right to suspend the trading account and terminate this Agreement.

7.5. Corporate Event

7.5.1. The Client has no rights or obligations in respect of the underlying instruments or assets relating. Specifically, in case of an equity CFD the Client will not receive any voting rights. However, the underlying instrument can be affected by various corporate actions (hereinafter "Corporate Events"). A "Corporate Event" is any action or event, whether temporary or otherwise, in relation to an underlying asset(s) of the CFD, or in relation to the issuer of the underlying asset(s) of the CFD, which would have an effect on the value, legal characteristics or ability to trade the underlying asset(s) or the CFD based on or referencing such underlying asset(s), including but not limited to: distributions or the grant of entitlements to existing holders of rights in the underlying asset(s), dividend payments, the granting of rights to purchase, subscribe or receive any underlying asset(s) (whether for free, on preferential payment terms or otherwise)

or cash, placings, rights issues, bonus/scrip issues, capitalization issues and similar issues, mergers or takeovers relating to the issuer of the underlying asset(s), subdivisions, splits, reductions (including share buy-backs), consolidations, reclassifications, restructurings, cancellation or suspension of listing of the underlying asset(s) or the issuer of the underlying asset(s), and any action or event analogous to any of the foregoing or otherwise that may have a diluting or concentrative effect on the value of the underlying asset(s) of the CFD.

- 7.5.2. In case a Corporate Event will occur while the Client is holding an open CFD Position or has a pending order affected by such event, the Company will endeavor to notify the Client of such Corporate Event, accomplished or yet to occur, as soon as it is reasonably practicable, however the Company reserves the right to act without prior notifications. According to the type of Corporate Event, the Company will inform the Client of the action(s)/adjustment(s) to be taken, if any, including the possibility of closing the affected position(s), including any pending order(s). In relation to the above, depending on the type of Corporate Event, the Company may be required to make an adjustment to the size and/or value and/or number of the related position(s), also including the possibility of opening the new position(s) or closing of the existing position(s) at the last available price. Such adjustment will account for the diluting or concentrating effect of the Corporate Event in order to preserve the economic equivalent of the rights and obligations of the parties in relation to that position(s).
- 7.5.3. Any action taken by the Company will be effective from the date determined by the Company and shall be binding, however, for the avoidance of doubt, the said actions may be retrospective. Closing of Client's CFD position(s) affected by a Corporate Event will not take place in case of dividend payments related to underlying equities. In this case adjustments will be made to the Client's Account, such adjustment will be calculated by the Company based on the size of the dividend, the size of Client's position, taxation and whether it is a buy or a sell trade.

7.6. **Expiry of Transaction and Rollovers**

- 7.6.1. The Company may, in its sole and absolute discretion, set an Expiry Date and time for a specific Instrument.
- 7.6.2. In the event the Company sets an Expiry Date for a specific Underlying Asset, it will be displayed on the Trading Platform in the details link for each Underlying Asset. It is the Client's responsibility to be aware of the Expiry Date and time.
- 7.6.3. If the Clients does not close an open Transaction with respect to an Underlying Asset which has an Expiry Date, prior to such Expiry Date, the Transaction shall automatically close upon the Expiry Date. The Transaction shall close at a price which will be the last price quoted on the Trading Platform immediately prior to the applicable Expiry Date and time.

- 7.6.4. When an automatic Rollover occurs, all associated Orders will be rolled over, and their requested levels will be adjusted according to the difference between the old and new contracts on a proportionality, as opposed to absolute basis.
- 7.6.5. The Company may, at its sole and absolute discretion, with respect to an Instrument which has an automatic Rollover, remove the automatic Rollover and set back an Expiry Date. Such a change will effect both new positions and existing open positions. In such circumstances, The Company will notify the Client by email prior to such change to any existing trade, however, the Client acknowledges that it is the Client's responsibility to be aware of the specific Instrument details available in the instrument tab on the Trading Platform. In respect of a Rollover of an open position, it is the Clients responsibility to ensure that his/her Trading Account has sufficient cleared funds to meet the margin required on any relevant new trade to be entered into as part of a Rollover.
- 7.6.6. The Client acknowledges that the trading of certain instruments on the Trading Platform may become volatile or illiquid without warning. In such case, it may not be possible to execute orders on the Client's behalf, particularly in the period shortly before an expiry, usually for instruments based on Futures Contracts and Options. If the Company determines that it would be in its customers' best interests, it may switch to a new contract under a different exchange. Such action would normally require an early rollover of the existing contract; but, in some circumstances, the Company may need to execute an early expiry, in which case the Client will receive prior notification by email.
- 7.6.7. In some circumstances, such as but not limited to, in the event of extremely low liquidity due to pending expiry of an Instrument or where the "Strike Price" of an Option CFD becomes no longer relevant or the Company stop receiving Bid/Ask prices on a chosen Strike price of an Option, the Company may, in its sole and absolute discretion, roll the Client's open positions and/or pending orders in some instruments to the next, more liquid contract, or set an earlier Expiry Date for those Instruments, and settle all open positions at the current rate on the market at the moment of the expiry.

8. Price Errors and Adjustments

- 8.1. Price Error may include an incorrect price, date, time or Market, or any error or lack of clarity of any information, source, commentator, official result or announcement.
- 8.2. In the Event of an Order based on Price Error the Company reserves the right without prior notice and as soon as reasonably practicable after it becomes aware of the Price Error to:
- 8.2.1. amend the details of such Order to reflect what the Company considers in its discretion, acting in good faith, to be correct or fair terms of such Orders ab-sent of such Price Error(s);
- 8.2.2. in the event the Client does not promptly agree to any amendment under Paragraph 8.2.1 above herein the Company may void from its inception any Or-der resulting from or deriving from a Price Error; and/or
- 8.2.3. refrain from taking any action at all to amend the details of such Order or void such Order.

- 8.3. The Company shall not be liable to the Client for any loss, cost or claim, remand or expense the Client suffered (including loss of profits or any indirect or consequential losses) resulting from Price Error(s) and or the Company's decision to enforce the de-tails of the Order notwithstanding any Price Error(s), except to the extent caused by its own gross negligence and or willful misconduct and or fraud.
- 8.4. The Clients accepts and acknowledge that CFD transactions carry a high degree of risk. The amount of Initial Margin may be relatively small with regard to the value of the instrument so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Client has deposited or will have to deposit. This may work against as well as for the Client.
- 8.5. The Company exclusively reserves the right to widen its variable spreads, adjust leverage and/or increase the Maintenance Margin without notice under certain market conditions including, but not limited to, around fundamental announcements or as a result of changes in credit markets and/or at times of extreme market volatility.

Although the term FX / FX Contract is a type of a Contract for Difference, it is mentioned separately to mean the type of CFD where the Underlying Asset is a Currency Pair.

2. Opening and Closing Orders/Transactions

- 2.1. In order to open a Transaction in an FX and CFD on the Trading Platform, you must either open a Buy or a Sell, at the price quoted by the Trading Platform at the time of such Transaction. In order to close a Transaction, you must either offer to sell (in the case of a Buy), or purchase (in the case of a Sell), the Underlying Asset covered by such open Transaction, at the price quoted by the Trading Platform at the time of such closing offer. Transactions or open positions cannot be transferred to other FX and CFD providers or their platforms. Full details of our Order Execution Policy can be found on the Website.
- 2.2. The Trading Platform will provide a Buy quote and a Sell quote for each Underlying Asset traded on the Trading Platform. You acknowledge that upon opening a Buy or closing a Sell, you may only do so at the price quoted by the Trading Platform to purchase such Underlying Asset. You further acknowledge that upon opening a Sell or closing a Buy, you may only do so at the price quoted by the Trading Platform for such Underlying Asset.
- 2.3. On the Trading Platform, you shall be entitled to make an offer to open a Transaction at the best available rate on the Trading Platform ("Market Order") at the time of opening such a Transaction, unless you specify a particular price in which to make an offer to open a Transaction ("Limit Order"). With respect to a Market Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the order is submitted. You agree that your offer to open a Market Order may be accepted at a lower price or higher price than the price indicated by you in your Market Order, within a certain range as specified on the Trading Platform from time to time. If you choose to open a Market Order, your offer will be accepted at the best possible rate offered on the Trading Platform.
- 2.4. With respect to a Limit Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the order is submitted. You agree that your offer to open a Limit Order may be accepted at a lower price if a buy, or higher price if a sell, than the price indicated by you in your Limit Order as specified on the Trading Platform from time to time. If you offer to open a Limit Order, your offer may be accepted at the price indicated by you in your offer. At any time prior to acceptance of a Limit Order, you may cancel the Limit Order without any further liability. If you choose to open a Limit

Order, your offer will be accepted at the best possible rate offered on the Trading Platform.

- 2.5. Orders can be placed and (if allowed) changed within the Trading Hours for each type of FX and CFD appearing on the Company's Website, as amended from the Company from time to time. The Client agrees that the Orders to open a position if accepted by the Company outside the Trading Hours may not be capable of execution should the market not trade at the price stipulated once Trading Hours commence.
- 2.6. Pending Orders, not executed, shall remain effective through the next trading session (as applicable). All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.
- 2.7. Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.
- 2.8. Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the Order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Trading Account Equity reaches zero.
- 2.9. Orders may be removed by the Client before they are executed.
- 2.10. Stop loss and Take Profit orders may be changed as long as they are higher in distance than a specific level (depending on the trading symbol).
- 2.11. The Client may change the expiration date of Pending Orders or delete or modify a Pending Order before it is executed. In order to change the expiry the Client will need to cancel the Order and place a new one.
- 2.12. FX and CFD Orders on currencies are executed as follows:
 - (a) Take Profit (T/P) orders are executed at stated prices;
 - (b) Stop Loss (S/L) orders are executed at first market prices;
 - (c) Stop Loss (S/L) orders set for lock positions are executed at first market prices;
 - (d) Limit orders are executed at stated prices;
 - (e) Buy Stop and Sell Stop orders for position opening are executed at first market prices.
- 2.13. It is understood that Quotes on the Client Terminal are indicative Quotes and Slippage may occur. To this end the Client acknowledges and agrees that:
 - (a) due to market volatility and factors beyond its control, the Company cannot guarantee that an Order (including Stop Loss and Take Profit Orders) will be executed at the level specified in the Client Order. For example, an Order may be closed at a worse price than

as originally specified by the Client in such an Order (i.e. Negative Slippage). In such an event, the Company will close the Transaction at the next best price.

(b) where the price for an Underlying Asset moves to the Client's advantage (i.e. Positive Slippage), the Company can pass such price improvement on to the Client.

2.14. In the event that the Company is unable to proceed with an Order, with regard to price or size or other reason, the Company will send a requote to the Client (with the price it is willing to deal until the price the Client asks is available). The Order will be rejected and the Client will need to place another Order.

2.15. The Company shall not be obliged to arrange for the execution of the Client's Orders in respect of any CFD out of normal Trading Hours which appear on the Company's Website.

2.16. The Company will delete Error Quotes (Spikes) from the Server's Quotes Base.

3. Stop and Limits

3.1. We may, in our sole discretion, allow you to specify a closing price for a Transaction through a Stop Loss and Take Profit Order, subject always to the terms of the Client Agreements and any other terms and conditions we may implement from time to time.

3.2. Upon your offer and our acceptance of your Order, you hereby authorize us to close the Transaction at the "Stop Loss" price or "Take Profit" price, as applicable, and as agreed in the Order, without further instruction from or notification to you. We may, in our sole discretion, close the Transaction when the price quoted by us on the Trading Platform equals or exceeds the price accepted by us for such an Order. You acknowledge that we will not be required to close any Transaction if you are not in compliance with any of the factors set forth in paragraph 7.1.18 of this Client Agreement.

3.3. We may, in our sole discretion, allow you to request the opening or closing of a Transaction, including a "Stop Loss" and Take Profit" Order, within a specific time period determined by you. If we have accepted such a request, we may in our sole discretion, close the Transaction within such specific time period. You acknowledge and agree that we shall not be obliged to close such a Transaction outside such specific time period or which does not otherwise comply with any other limitations agreed upon with respect to such Transaction.

3.4. We may, in our sole discretion, accept an offer to place a Trailing Stop in relation to a Stop Loss Order. You acknowledge that the original price level set forth in a Stop Loss Order may be amended as the market on the Trading Platform moves in your favor. Whilst your Trailing Stop is still in effect, you agree that each change in the market by at least a Pips on the Trading Platform in your favor shall constitute a new offer by you to raise the level of your Trailing Stop by one hundredth of one percentage point. Changes in a Pip will be rounded to the nearest absolute value in your base currency based on your country of origin, as shall be specified on the Trading Platform.

- 3.5. You acknowledge and agree that due to market volatility and factors beyond our control, we cannot guarantee that an Order will be executed at the level specified in your Order, for example, an Order may be closed at a worse price than as originally specified by you in such an Order. In such an event, we will close the Transaction at the next best price. For example, with respect to a Stop Loss Order, in the case of a Buy, the price of an Underlying Asset underlying such Order may suddenly decrease below the Stop Loss price, without ever reaching such price. In the case of a Sell, the price of an Underlying Asset underlying such Order may suddenly increase above the Stop Loss price, without ever reaching such price.
- 3.6. With respect to a Take Profit where the price for an Underlying Asset moves to your advantage (for example, if the price goes down as you buy or the price goes up as you sell), you agree that we can (but do not have to) pass such price improvement on to you. For example, in the case of a Buy, the price of an Underlying Asset underlying such Order may suddenly increase above the Take Profit price, without ever reaching such price. In the case of a Sell, the price of an Underlying Asset underlying such Order may suddenly decrease below the Take Profit price, without ever reaching such price.
- 3.7. The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.
- 3.8. The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever.
- 3.9. Limit Orders and Stop Loss Orders for equity CFDs are executed based on the preceding ex-dividend prices and if not fully executed before the occurrence of the forthcoming Corporate Event, entitling the Client to a dividend for the equity CFD position(s) the Client is currently holds, the Client's relevant CFD position(s) will be closed by the Company prior to that Corporate Event at the then prevailing market price. Similarly, the Company will ask the Client to close any affected pending Limit Orders and Stop Loss Orders before the forthcoming Corporate Event or will do so on its own.

4. Premium (or Swaps)

- 4.1. Any open Transaction held by you at the end of the trading day of the Underlying Market or over the weekend when the relevant Underlying Market is closed, shall automatically be rolled over to the next business day to avoid an automatic close. You acknowledge that when rolling such Transactions to the next Business Day, a Premium/Swap will be either added or subtracted from your Account with respect to such Transaction ("Rolling"). The Premium amount is a constant percentage of the position value and is based on a number of factors including among others, whether the Transaction is a Buy or a

Sell, interest rates, Underlying Asset differentials, daily price fluctuations and other economic and market related factors. The Premium/Swap for each Underlying Asset is displayed in the "details" link for each specific Underlying Asset on the Trading Platform.

- 4.2. In deciding whether to open a Transaction for a specific Underlying Asset, you acknowledge that you are aware of the Premium.
- 4.3.
